

**POZVÁNKA**  
na 263. seminář ÚTEF ČVUT v Praze  
pod záštitou Československé sekce NPSS IEEE

# **Reactions with radioactive and weakly bound nuclei at near barrier energies**

**Prof. Paulo R. S. Gomes**

Institute of Physics, Universidade Federal Fluminense (UFF)  
Rio de Janeiro, Brazil

**Abstract:** The radioactive beam facility at São Paulo (RIBRAS) will be presented including selected reactions of astrophysical interest. Systematic results will be given on fusion reactions of weakly bound nuclei, stable and radioactive, obtained by our and other groups through a method developed at Rio de Janeiro (UFF method). New results on fusion and breakup mechanisms of selected reactions will be discussed.

Seminář se bude konat v úterý 4. června 2013 ve 14 hodin  
v zasedací místnosti ÚTEF ČVUT, Praha 2 - Albertov, Horská 3a/22

Ing. František Krejčí  
tajemník semináře

Ing. Stanislav Pospíšil, DrSc.  
ředitel

Doc. Ing. Carlos Granja, Ph.D.  
předseda NPSS, ČS IEEE
